

Katsiaryna Martsynkevich

Date of birth: 12.12.2001

About me

A Junior Python Developer with a background in psychology and sales. I combine analytical thinking with strong communication skills. I am proficient in Python basics, Django, SQL, and UI tools (Figma/PS). My psychology education helps me understand user needs and work efficiently in a team. I am disciplined, meet deadlines, and love breaking complex tasks into smaller parts.

Education

- Python Developer PRO | SkillFactory (in progress)
- M.Sc. candidate in Psychology & Sexual Psychotherapy | University Vizja, Warsaw

Work Experience

Python Developer (Educational & Pet Projects)
SkillFactory, Python Developer PRO | 2024 — present

Developed a series of projects covering key areas of Python development through an intensive course and independent work:

Introduction to Python — built a Tic-Tac-Toe game from scratch, applying core language concepts: conditionals, loops, and functions.

GitHub: github.com/Kotelaa/Tic_tac_toe

OOP & Telegram Bots – Built a currency converter bot (aiogram) and a Battleship game with object-oriented architecture.

GitHub: github.com/Kotelaa/CurrencyChangeBot

GitHub: github.com/Kotelaa/Sea-Battle

Developed a Telegram bot for the Moscow Zoo concept ("Totem Animal"): implemented an 8-question quiz using a Finite State Machine (FSM), custom results with photos, staff integration feature, and a /privacy command. Stack: Python 3.14, aiogram 3.x, async request handling, logging and performance monitoring.

GitHub: github.com/Kotelaa/MoscowZooBot

Psychological Group Facilitator (Internship) | Mental Health Support & Rehabilitation Center | 05.03.2025 – 17.05.2025

Practical training within Academy of Economics and Humanities, Warsaw, Stowarzyszenie Otwarte Drzwi

- Facilitated group sessions for people with mental challenges; conducted educational lessons (Olympics, holidays of different countries, etc.); motivated participants; planned daily routines; crisis intervention.
- Tech & tools: Verbal communication, lesson planning.
- Result: Participants showed increased engagement; learned to stay calm in chaos, make decisions without direct supervision, and manage group dynamics.

Independent Insurance Consultant (B2B / per-order) | Cooperation with multiple insurance companies | 07.02.2025 - present

- Receive orders from different insurance companies; full client communication and policy filling.
- Result: Completed 40+ policies, maintained client satisfaction, handled stressful negotiations.

Sales Assistant | Children's Clothing Store | 17.01.2024 – 15.08.2025

- Customer consulting, cash desk operations, recording sold items, visual merchandising.
- Result: Adapted quickly to different customer personalities, managed cash desk without errors, handled stressful shifts.
